

HUMAN RIGHTS AND DIGNITY

The Bill of Rights

(United States of America, 1789)

During the debates on adopting the U.S. Constitution, opponents charged that it would open the way to tyranny, as the memory of British colonial rule was still fresh. They demanded a “bill of rights” that would spell out rights that the government could neither deny nor abridge. On December 15, 1791, the state legislatures ratified the first 10 amendments to the U.S. Constitution, known as the Bill of Rights.

On September 25, 1789, the First Congress of the United States proposed amendments to address concerns that the U.S. Constitution did not guarantee individual rights. In the words of James Madison, then a U.S. representative from Virginia, debates over the drafted amendments were "extremely difficult and fatiguing." With Virginia's ratification on December 15, 1791, the amendments received the required approval of three-fourths of the states and became the Bill of Rights. ©Architect of the Capitol
